LIGNA
World’s Leading Trade Show for Woodworking and Wood Processing
10 – 14 May 2021
Hannover ▪ Germany
ligna.de

LIGNA is the world’s leading trade fair for woodworking and wood processing plant, machinery and tools. It showcases ideas and solutions across the entire wood value chain, from forestry technology and wood-based panel production to surface technology, right through to plant and machinery for the furniture industry and the woodworking trades. A large international presence and all-round expertise – this is what everyone associates with LIGNA. The innovative design and technology of the products and systems on display here, reinforce the global reputation enjoyed by LIGNA as the top event for the industry worldwide.

MEM
MAGNA EXPO MUEBLERA INDUSTRIAL
20 – 22 January 2021
Mexico City ▪ Mexico
memindustrial.mx

MEM Industrial is the most important business platform in Mexico for the wood processing and furniture manufacturing industry. It is organized by Deutsche Messe with the support of the Mexican Association of Vendors from the Wood and Furniture Industries (AMPIMM), the European Committee of Woodworking Machinery Manufacturers (Eumabois) and the Mechanical Engineering Industry Association (VDMA). MEM Industrial offers the largest and most typical range of machines, tools, equipment, materials, locks, supplies and accessories.

IFMAC
International Furniture Manufacturing Components Exhibition
23 – 26 September 2020
Jakarta ▪ Indonesia
ifmac.net

The only woodworking show in the Indonesian market IFMAC stands for International Furniture Manufacturing Component Exhibition and takes place in the 9th edition at the JIEXPO fairground in Jakarta. By working together with WAKENI – a professional exhibition and conference organizer in Jakarta – the show presents high-technology machinery and process technology, latest innovations in furniture components, materials and accessories. Supported by the high demand for quality furniture and the wide availability of skilled workforce, Indonesia is a high attractive market and feasible production ecosystem for furniture manufacturers.
